An Introduction to the ASSOCIATE MINISTRY PROGRAMME

Introduction

Thank you for your interest in the CWM Associate Ministry Programme (AMP). The CWM Associate Ministry Programme is a three-year apprenticeship programme designed to initiate believers into a lifestyle of building and multiplying growing lifelong discipleship relationships. The programme is conducted within a structured framework – the CWM Mission Apprenticeship Framework (MAF).

The Mission Apprenticeship Framework

The CWM Mission Apprenticeship Framework consists of two tracks: Track 1 (Study Track) and 2 (Fellowship Track).

Track 1 is a modularised personal study curriculum. Each study module is designed to deliver specific objectives within a specific year of an Associate's apprenticeship period. Each of the three MAF modules is based on a specific selection of resource books (table 1).

The life and ministry application resource books available under the MAF are strategically assembled to acquaint an Associate (and subsequently his Mission Cluster members) with working knowledge of the Great Commission; Faith; Relationships; and Leadership. In addition to these resource books, CWM offers complementary subscription to the Labourer's Terms of Covenant (LTOC) monthly study issue for all the members of an Associate's Mission Cluster.

Year	Module	Objectives	Resource Books offered by CWM
Year I	Incipient Module	Induction into the Great Commission and the Walk of Faith	1) From Faith to Faith Devotional 2) The Lost Art of Disciple Making
Year II	Intermediate Module	Appreciation of relationships as the essence of life and ministry, and knowing how to bond in relationships	1) Covenant Relationships
Year III	Advanced Module	Orientation to fundamental life and ministry skills	John Maxwell's REAL Leadership Series: 1) Attitude 101 2) Relationships 101 3) Equipping 101 4) Leadership 101

Track 2 is a series of guided Mission experiences in which an Associate gets the opportunity to periodically fellowship with and minister alongside the CWM Mission Team. The experiences are

intended to impart attitude, skills and character into the life of an Associate through a combination of teaching and modelling techniques (leading by example).
